

# LEAN DEPLOYMENT

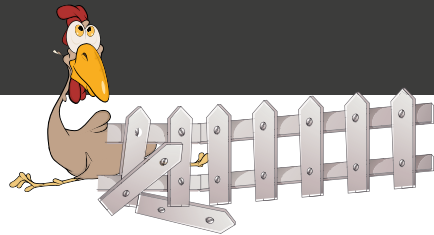

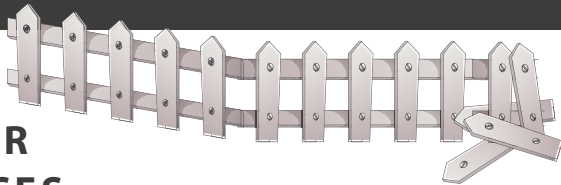

Hubert Plattmann  
Lean Placement

**IDENTIFY, PROMOTE,  
AND UTILIZE  
EMPLOYEES'  
POTENTIALS!**

**Eliminate  
waste  
Remove causes  
for errors**

**ARE YOU AND YOUR PARTNER **LEAN?****

**WE DON'T HAVE TIME...**

**...TO REPAIR  
OUR FENCES.**

**WE'RE SO BUSY  
CONSTANTLY  
CATCHING  
OUR CHICKEN.**

The method determines the long-term success!

Do you and your partner still catch the chicken or do you already repair your "fences"?

Help yourself and your partners to get started.

# MY KNOW-HOW

Based on my professional development, I gained worldwide experience in structuring lean organizations and in applying lean methods.

I will support your long-term implementation from developing a Lean Vision to establishing a Lean Culture.

Seminars, hands-on workshops and coaching will help to get your employees actively involved. This will lead to a self-constituted lean organization in your company.

*H. Platten*

# METHODS OF LEAN IMPLEMENTATION

Learning by doing: Active involvement leads to self-management.
