PLATTMANN PRODUCTIVITY ANALYSIS PPA

PLATTMANN PRODUCTIVITY ANALYSIS PPA

Benefits of the hard & software:

- Identification of potentials in manufacturing processes
- Transparent and user-friendly setting
- Visualization of production key data
- Temporary set-up to handle current problems
- Fast decision-making possible when recognizing variations
- Interface to Microsoft Office Applications
- Customer-specific data analysis
- Integration in internal network
- Data base for Six Sigma analyses
- Adaption to customers needs
- Easy and fast installation

WHY PPA?

Only the systematic and consistent capturing of causes for downtime in the production areas can lead to a targeted implementation of improvements.

The PlattmannProductivityAnalysis is developed based on our practical experiences worldwide. This tool is simple to use by production team members. It leads to high acceptance among team members and meaningful analyses.

I'm looking forward to meet with you on site.
